Work experience

Administrative Intern | OLDFOR SARL AU | 03/07/2023 - 28/09/2023 | Salé, Morocco

Assisted in daily operational tasks within the company, ensuring timely execution of assigned missions.
Collaborated with supervisors to understand internal processes and apply instructions accurately.
Demonstrated strong attention to detail when preparing, reviewing, or organizing work-related documentation.
Showed adaptability and quick learning during training sessions provided by staff.
Maintained professional conduct and responsiveness throughout the internship period.

IT Support Intern | Harmony Technology | 26/06/2024 - 20/09/2024 | Rabat, Morocco

Supported the IT department in system maintenance, software updates, and troubleshooting.
Assisted in diagnosing technical issues affecting internal workstations and network services.
Contributed to secure configuration practices by following internal IT guidelines.
Participated in monitoring and documenting technical tasks related to infrastructure stability.
Applied strong analytical skills to follow through assigned missions with professionalism.

Education & Training

Bachelor of Engineering in Computer Science and Technology | Dalian Polytechnic University | 01/09/2021 - 27/08/2025 | Dalian, China

Field of study Algorithms, Data Structures, Programming, Operating Systems, Computer Networks, Artificial Intelligence, Database Systems, Software Engineering, Mobile Development, Digital Logic, Fundamentals of CyberSecurity | **Level in EQF** 6

Language Skills

Mother tongue(s): Arabic

	Understanding		Speaking		Writing
	Listening	Reading	Spoken production	Spoken interaction	
English	C1	C2	C1	C1	C1
French	B2	C1	B1	B1	B2
Chinese	A1	A1	A1	A1	A1

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user

Skills

Programming & Software Development | Experienced in Python, Java, C, and JavaScript/TypeScript. | Skilled in React and modern web development tools. | Capable of writing clean, structured, object-oriented code. | Able to debug, optimise, and maintain software applications.

Cybersecurity & IT | Solid understanding of computer networks and operating systems. | Familiar with secure coding practices and basic threat modelling. | Comfortable working in Linux environments and performing admin tasks. | Experienced in analysing malware behaviour through image-based methods.

Machine Learning | Able to build and train deep-learning models using TensorFlow/Keras. | Experienced with CNN architectures for classification tasks. | Skilled in data preprocessing and feature extraction. | Capable of evaluating models using standard performance metrics.

Tools & Technologies | Proficient with Git/GitHub for version control. | Comfortable using Linux CLI, VS Code, PyCharm, and Jupyter Notebook. | Familiar with SQLite and basic database operations. | Experienced with project setup using npm, pip, and virtual environments.

Communication & Professional Skills | Strong technical writing and documentation skills. | Effective team communicator in multicultural environments. | Reliable, adaptable, and able to learn quickly.
